21.10.75 TELER 21102 GOWW DOUS Hennings Re Sorethroat.
Revd The policy that applies is PR Series 19-1. David
0900 21.10.75 has laid down a strategy which is to
enable us to contain the scene. Our plants
when trapped are freedom investigative
reporters just like any other newspaper.
The plants themselves do not have to confess
or be named. Since B-1 have cooled sore throat
since Aug there is unused data for a freedom AMA
expose. We can undercut AMAs continual efforts to
expose us by indicating it is a smokescreen to prevent
Freedom from publishing. The freedom article can explain
how freedom got onto the story from a tip by Sorethroat.
So freedom identifies with Wash Post expose of Nixon's
white house. Spinelli for good measure identifies
as above AMA will be in the bind of promoting over freedom story whenever they pull
a headline of attack. Nev same.
